

MAKE:

Rubber Band

Check out our
YouTube tutorial!

Try using your bird
in your game of
'Zone Strike'
instead of a ball
one time.

1: Using the template, cut out your bird from foam sheet or card

2: Fold in half along 'FOLD A'

Glue or Sellotape body together – leave a bit of the tail unglued so it opens out.

FOLD B

FOLD A

FOLD C

3: Fold wings out, along 'FOLD B' and 'FOLD C'

Slot a small rubber band onto 1 or 2 hair grips.

Slide the hair grips between the fold at the front (where the beak might be!)

Tape it in place so it's secure.

4: Put a 'thumbs up' in front of you!...loop the rubber band around your thumb, pull bird back with your other hand, release & watch it fly!
