# MAKE: S'Octopus Soak & Splash

You will need:

- Square of fabric - old T-shirt is perfect
- Stuffing or a sponge ball
- Elastic bands
- Ribbon pieces (optional)
- Googly eyes (optional)

1: Using a large square piece of material, cut out 4 corners. An old T-shirt is great material to use  
Then cut as shown to make 6 strips on each arm.  
Gather the material around a sponge ball or some stuffing from an old pillow. Secure in place with a rubber band.

2: Hold the head of your octopus between your knees and using 3 strands at a time, plait the legs.....8 in total.  
Secure each leg with a rubber band & decorate with some ribbon.  
Fill a bowl outside with some water & soak your octopus.  
Why not make one with a friend and then have some fun outside throwing them to eachother.

Alternative: Use a coloured sock. Stuff the head, tie a knot, cut 8 legs. Tie knots in each leg.....soak & splash !
