## MAKE: Silky Smooth Playdough

You will need:

1. Flour
2. Hair conditioner

Pop a cup of flour into a bowl. Add a squib of hair conditioner. Mix & roll it together with your hands. Squelch - Squish

Add more conditioner as you need it, a bit at a time, until you have a lovely silky-smooth dough. If your dough becomes too sticky, simply add a bit more flour.

Try adding a little of these plant colourings to colour your dough. Mix with a tiny bit of water first to make a paste, then add to your dough. Mix together well with your hands.....  
What will you make with yours?
